HOPE

Most of us were probably unprepared to adapt the new normal brought by the outbreak of the pandemic since the beginning of 2020. So far, we have gone through material shortage, work from home, restrictions of gathering, suspension of services, etc. It is conceivable that the elderly, low-income families, the disabled and the needy have encountered more difficulties under these situations. While our mission is to 'care for each other, inspire love, and encourage good deeds', we insist on bringing hope and warmth to the others even in adversity.

Our heartfelt thanks for **your support**

Elderly Service

Elderly Day

Elderly Day is an annual event organised before Lunar New Year to provide different services for the elderly. From home cleaning in the early days, the program has extended to dental examination, dementia test, residential home visit and elderly centre visit. More than 17,000 elders have been benefited since 1996 under this activity.

Dr. Lam Ching-choi, Chairman of the Elderly Commission, delivered a speech at the 23rd Elderly Day, "I see a blue ocean of volunteers. You are the one who will bring hope to the elderly today!" On that particular day, nearly 2,800 volunteers went to different corners of Hong Kong and served 1,007 elders.

Elderly Fall Prevention Program

The 'Elderly Fall Prevention Program' has served more than 16,000 elders since its launch in 2005. We use a simple test tool developed by the Faculty of Medicine of the Chinese University of Hong Kong to test the risk of fall. Through educating the elderly about fall prevention and simple exercises, the possibility of falling again is reduced. Follow-up services include installation of handrail and home visit by occupational therapist or physiotherapist.

'Fulfill a Wish' Program

More than 800 elders' wishes have already been fulfilled under this Program. For those living alone, especially those with limited mobility, even simple movement would become difficult for them. Over the years, our volunteers have helped many elders fulfill their wishes, including reunion with relatives, memorable place visit, achieved something that they did not have a chance when they were young, bought household items, etc. There were a lot of laughter and touching moments which were of great significance to the elderly.

Stories of 'Fulfill a Wish' Program

A long travel for a meal

Granny Chan is an elder living alone. Her wish was to have an opportunity to have a meal with her aged husband and her intellectually disabled daughter who were living in an elderly home and a nursing home respectively, both scattered in different parts of Hong Kong.

It was regrettable that a family living in the same city was unable to sit together for a meal. It took more than a month for the volunteers to arrange the family reunion as they needed to discuss the details with the social workers and go through certain home leave application procedures with different parties.

"It seems like we have travelled a long distance for this meal. Although they don't speak a lot during the meal, granny Chan's tearful eyes, smiling face and grateful expressions already tell how happy she is. All of us are deeply moved by this meal," said Mandy, one of the volunteers.

An amazing mission for fulfilling a wish

Uncle Du loves painting but didn't have the opportunity and resources at his young age. Not until his retirement, he had time to pick up painting again which seeded a wish to have his own painting exhibition. It was not easy for the volunteers to make this wish come true. Without any experiences, they needed to find a gallery, choose the art pieces, frame the paintings, then design an invitation card and arrange promotion, all required extra workloads besides their own jobs.

The three-day exhibition was successfully held with the volunteers' hard work, persistence and sacrifice. Surrounded by his family and friends, Uncle Du was so moved that he almost shed tears. He thanked the volunteers for walking the extra mile for his wish.

Unusual cleaning

When the volunteers opened the door of this elder's home, they wanted to run away. But they told themselves, "If I'm not going to do it, who will?" This granny's home was full of debris, cockroaches and everywhere was covered with black dirt. After hours of hard works and many buckets of sewage, the nostalgic tile pattern on the floor finally appeared.

Granny thanked the volunteers with tears of happiness and gratitude. For many years, she was cold-shouldered by her neighbors because of her messy, dirty and smelly home. Even if some other volunteer teams visited her, they were all scared by this extremely difficult task. This was the first time that some persons were willing to roll up their sleeves and serve to the end, helping the granny to improve her living environment.

Up to now, the HOPE worldwide Center for Kids has served 29,000 children from low-income families, providing after-school learning assistance and character-building guidance, hoping to break the cycle of poverty for these families. So far, many members of the center have grown up and become social pillars whilst improving their family conditions.

No. of Recipients:

	Low income family	9,600
	Children from low income family	29,000
	Children with special educational needs	100

HOPE worldwide Center for Kids

A Village Makes SENse

HOPE worldwide launches 'A Village Makes SENse' Program, which is a one-stop learning center for caring the children who have special educational needs (SEN). We do not only help students to complete their homework, but also focus on equipping them with the necessary skills for their daily life.

Stories of 'A Village Makes SENse' Program

The problem we encountered

Zack was in primary two when he first joined the HOPE worldwide Center for Kids. He had some problems to get along with the other children. He always snatched toys from others and ran around the classroom during tutorial class. We suspected Zack had special education needs and recommended his parents to communicate with his school. Zack was diagnosed with hypoattentive hyperactivity. Besides his treatment, we insisted on training Zack's social skills and self-control ability, teaching him how to respect others. Whenever he refused to do homework or revision, we would insist but let him know that he could choose. Zack's progress was remarkable in that year. He successfully made many friends and had a big leap in his school academic performance. Zack's dad said, "I totally trust the HOPE worldwide Center for Kids."

HOPE worldwide Dental Clinic

Giving back to the society for what we have taken
Spending our service income to help the elderly

Many elders prefer not to seek dental treatment even they have toothache problem in order to save the medical expenses. As such, HOPE worldwide opened two dental clinics in 2017 operating as social enterprise with a purpose to provide high-quality dental services to local residents at reasonable prices, thereby helping the elderly in need.

The operating surplus is used to subsidize the elderly for their dental services. At present, we have participated in the 'Elderly Dental Services Subsidy' program run by the Community Care Fund, so that recipients of elderly living allowance can receive free dental treatment. We have also been approved by the Social Welfare Department as a 'designated dental clinic' to provide dental quotation and treatment services for CSSA recipients who are eligible for dental subsidies.

The Poor Children in China

A Child's Growth in Distress

Zhenni is a primary three student and her family situation is a bit difficult. Three generations of her family are packed in a small room. Zhenni's mother suffered from cerebral palsy at birth which caused damage to the left half of her body. She was often bullied and teased by her classmates in her early age due to her abnormal body figure.

We encourage Zhenni to form a children committee with her classmates and participate in community service. We also find a role for her mother in the community service. Zhenni's mother and granny turn out to be great helpers in various activities.

Zhenni's learning attitude is getting better and better. She enjoys school life and is improving academically. She is elected as a teacher assistant and always drives other children to participate in activities. Her lovely smiles enable her to build up close friendships with the other children.

It is really encouraging to see the changes brought by this family – from shortage in life to enthusiastic and proactive support.

2020: We haven't stopped and are **striving** for

Thank you for donating anti-pandemic materials

Many elderly living in Sham Shui Po rely on subsistence allowances. This group of people requires extra care to meet their daily needs and raise their awareness of pandemic prevention. We have received many donations of anti-pandemic materials from various parties, which we can directly distribute to the elderly and the low-income families in Sham Shui Po and Kwai Tsing districts, as well as the elderly centers in other districts, supporting their urgent needs. Up to now, we have received and distributed:

36,400
masks

Established the Precious Links Center

The Precious Links Center is set up in response to the needs of the elderly, targeting those who are above 60 living in Sham Shui Po area and require financial assistance, especially those with social, cognitive and oral health needs. We regularly launch various activities to train the elders' mental and physical abilities and visit those with limited mobility in the district.

First cooperation with Food Angel

HOPE worldwide together with Food Angel are now providing about 150 lunch boxes at Shek Kip Mei Centre every week for the low income families and the elderly. The beneficiaries can enjoy the food by simply steaming it, which is easy and simple for the elderly with mobility needs.

2,400

alcohol-based
hand sanitizer

2,400

fast food
restaurant coupons

1,000

supermarket coupons

Good Trekker raises funds for the poor in Kenya

When COVID-19 raged in Africa in the middle of the year, there was a shortage of anti-pandemic supplies in Kenya. In view of this, a group of philanthropists who had participated in the 'Good Trekker' Kenya Charity Tour spontaneously raised funds for Kenya HOPE worldwide so that they had some funding to search for anti-epidemic supplies and solve their urgent needs.

80+20 Community Elderly Oral Health Program

Many elderly lack oral care knowledge or ignore the importance of dental health due to cost issue. The '80+20 Community Elderly Oral Health Program' aims to help the elderly retain 20 healthy teeth at the age of 80. Since September 2019, we have sent dentists to many elderly centers to provide dental examination for their members, educate them the knowledge of oral care and refer them for free dental scaling at our clinics. More than 400 elders have been benefited so far.

Smile Again Program extends its services to the handicapped

We are working together with the Operation Santa Claus project of the South China Morning Post and a number of NGOs to provide dental care services for 400 people with emotional, mental, behavioral or physical disabilities; as well as those children from the low income families and have special educational needs (SEN). Each eligible person will receive a subsidy of \$1,500 for dental examination and scaling services.

Future Development

Elderly Day Care Center

According to the Social Welfare Department, more than 130,000 elderly are CSSA recipients. As the population ages, the demand for long-term care services will keep on increasing. HOPE worldwide is now raising funds for a day care center, aiming to provide comprehensive services for the elderly.

Expand the services of the Precious Link Center

Community Care Service for the Elderly

We are now applying to become a community care service provider for the elderly. The elderly would only need to present the 'Community Care Service Voucher for the Elderly' to enjoy the home services provided by us, including meal distribution, hospital escort, rehabilitation treatment, nursing services, personal care, household cleaning, speech therapy, etc.

Elderly Day

The 25th Elderly Day will be held on January 31, 2021. Same as previous years, more than 3,000 volunteers will be sent out to serve more than 1,000 elders who are living alone.

Projects for 'A Village Makes SENSE'

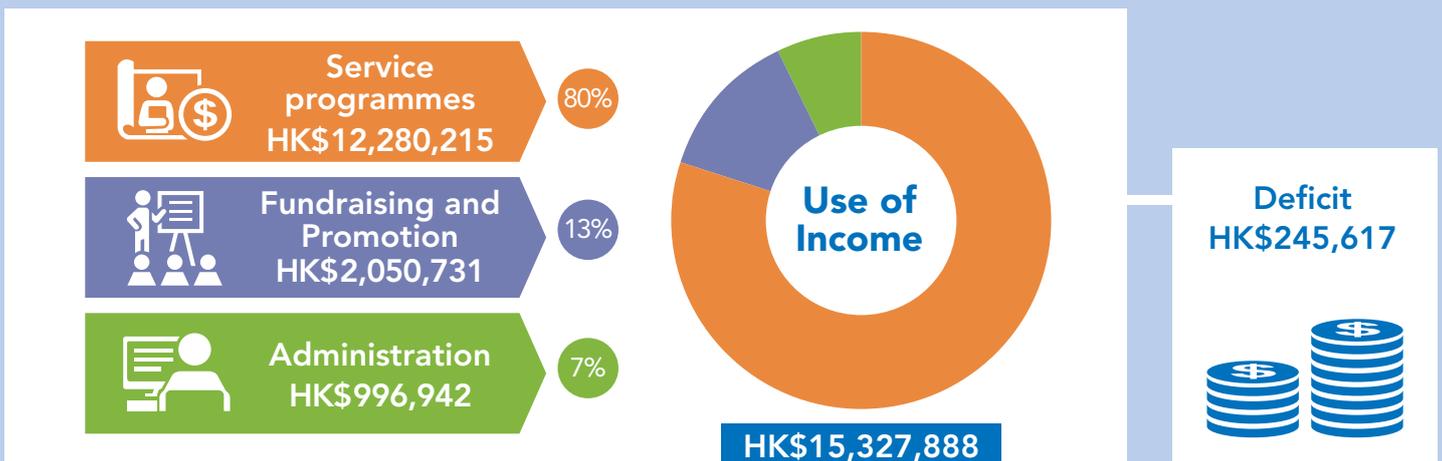

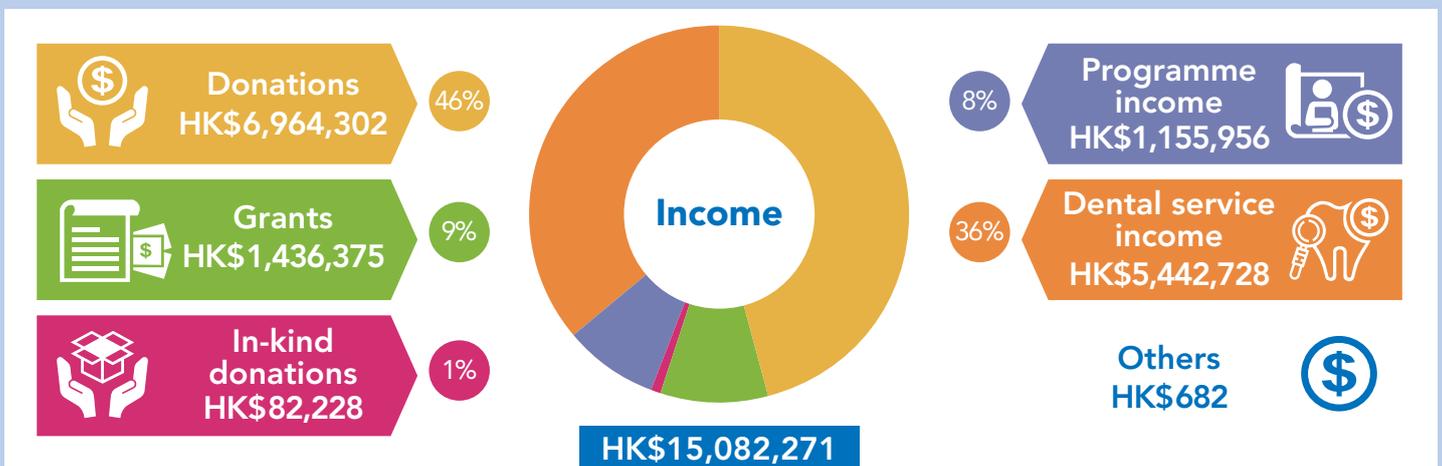

With the assistance from the University of Education and the donations from the Swire Charities Trust, the HOPE worldwide Center for Kids will establish the first play therapy club. The course 'Game Tutoring for Special Needs' will be organised in 2021, aiming to improve community support services for special education. Our Center will develop various professional services such as play therapy, occupational therapy and assessment services.

Financial Highlights

HOPE worldwide always adheres to the conviction of 'good steward' in the Bible and spends most of the donations on the beneficiaries. It is our aim to maintain the administrative expenses within 10% of the total expenditure. In 2019, 80% of the total expenditure was allocated to support different service programs and activities.
