Laying the Foundation for a

Wellness Community through Care

2024-2025 Annual Report

Seeds of Hope Bloom Through Services

Over the past year, HOPE *worldwide* has actively expanded its services in the fields of elderly care, dental health, and services for children and youth. In response to the diverse needs of our service targets, we have launched activities aimed at providing more thoughtful and detailed support.

In the realm of elderly services, to assist elders in achieving 'healthy aging at home', we have introduced engaging and innovative exercise classes, social activities, and interest groups to enhance their quality of life. We also encourage capable elders to become 'angels' for others by volunteering, fostering a spirit of service within the community.

Regarding dental services, in light of the challenges faced by the low income families in affording dental care, we have participated in the government's 'Community Dental Support Program' to provide oral examinations and basic treatments for those in need. Additionally, we have organised oral health education workshops to raise public awareness about daily care and prevent oral diseases.

For our services aimed at children and youth, we have specifically designed interactive learning and psychological counseling programs in collaboration with schools to help growing children build confidence and develop a sound set of values.

We will continue to listen to the needs of the community, adjusting and refining our services to sow seeds of care and hope in various corners of the community.

The **Hope** You Are Bringing. The **Lives** You Are Changing.

Elderly Service

Healthy Aging at Home

According to the 2021 Hong Kong Census data, there were approximately 270,000 elders living alone in Hong Kong, accounting for about 18.5% of the total elderly population. Another survey indicates that around 190,000 elders aged 65 and above live alone, and this number continues to rise in line with the aging population in Hong Kong.

HOPE *worldwide* has been providing elderly services in Shek Kip Mei and Sham Shui Po for many years, with over 800 members currently at the Precious Link Centre in Shek Kip Mei. In recent years, we have implemented the Healthy Aging at Home initiative, aiming to ensure that the elders can enjoy their later years with dignity and happiness in their own homes. Over the past year, we have provided activities and support tailored to the psychological, daily living, and medical needs of elders, with the hope that they can live independently and achieve a 'self-support' care model, thereby alleviating the burden on caregivers.

About Social and Interest

HOPE *worldwide* organises various interest classes to engage elders in different activities, enhancing their enjoyment of life and social opportunities while promoting their physical and mental well-being.

Balloon Twisting Fun

We invited a group of young members from the HOPE *worldwide* Centre for Kids to learn balloon twisting alongside elders. The elders, amidst the laughter of the children, created different flower shapes, which not only trained their cognitive skills and hand dexterity but also allowed them to enjoy delightful interactions with the young ones.

Playing Board Games Together

Every Wednesday morning, a group of friends gathers at the center to enthusiastically play various board games. These games not only exercise their minds but also enhance social interaction. Friends enjoy chatting while playing, making for a relaxed and enjoyable morning.

Making Tote Bags

We extend our gratitude to TARGET for sending volunteers to teach the elders how to make tote bags. The elders could take their unique creations home, making the activity both fun and practical.

About Outdoor Excursions

Fresh air and sunshine are good for blood circulation and brain vitality and can significantly enhance the elderly's psychological well-being. Outdoor activities are essential in reducing loneliness and depression while fostering a sense of satisfaction. The increased opportunities for social interaction also help build social networks, enhancing the sense of belonging and self-confidence.

Intergenerational Disney Day

Last summer, some students from Maryknoll Fathers' School served as volunteers and brought 21 of our senior members to Disneyland. Both parties were uplifted by the park's joyful atmosphere and enjoyed the time spent together.

Mentholatum - Half-Day Trip to Mai Po

Besides students, Mentholatum corporate volunteers also supported our activities, bringing some senior members to the Mai Po Nature Reserve and sharing lunch. Despite the unstable weather, the volunteers showed great care for the elderly, ensuring they enjoyed the outing.

About Health Knowledge

As the elderly's physical condition declines, their muscle strength and balance would weaken, increasing their falling risk. Fall prevention is crucial as falls can lead to serious injuries such as fractures and concussions, and may result in long-term bed rest, adversely affecting the quality of life and self-care abilities.

Fall Prevention Safety Day for Elders

As elders experience a decline in physical functions, muscle strength diminishes, and balance abilities decrease, the risk of falls significantly increases. Preventing falls is crucial for elders, as they can lead to serious injuries such as fractures and concussions, and may result in long-term bed rest, adversely affecting quality of life and self-care abilities. HOPE *worldwide* conducts annual fall risk assessments for elders, educating them on fall prevention to reduce the likelihood of accidents.

Silver Age Eye Care Center - Free Eye Examinations

Regular vision checks can also reduce the risk of falls. We invited professionals from the Silver Age Eye Care Center to provide free eye examinations and follow-up services for 50 elders.

Stretching Exercise Classes for Elders

Over the past year, we had organised multiple stretching sessions, where an instructor taught the elders various techniques. During these sessions, the elders learned which movements could target specific pain issues and were able to practice at home.

Nordic Walking Experience Class

Nordic walking is an emerging exercise that uses specialised poles to enhance overall muscle strength and cardiovascular endurance, helping to prevent chronic diseases such as hypertension, diabetes, and heart disease. Regular practice can reduce body fat, increase muscle mass, and improve balance and posture, thereby reducing fall risk. Its moderate intensity makes it particularly suitable for middle-aged and older adults. Research indicates that regular Nordic walking can enhance neurotrophic factors in the brain, benefiting cognitive function.

HOPE *worldwide*'s instructor conducts outdoor training sessions that help alleviate stress, anxiety, and depression, improving the quality of life and attracting many senior members. We also co-organised a Nordic Walking Workshop with the Hong Kong Nordic Walking Association, sharing the joy of this sport with social workers, nurses, and doctors. The event also included muscle assessments by Moti-Physio AI to understand pain conditions in Hong Kong.

Flexi Bar Exercise Classes

Participants must continuously adjust their body posture during training, utilising vibration training to promote overall blood circulation, which aids in improving physical function and maintaining a healthy weight. The vibration effect stimulates and activates reflexes, significantly enhancing balance and increasing strength, making it effective in preventing falls. This exercise can alleviate discomfort in the shoulders, neck, waist, and back, making it particularly suitable for individuals with pain issues.

Stick Mobility Classes

Compared to Nordic walking and Flexi Bar, Stick Mobility is also a versatile training method suitable for all age groups, combining flexibility, strength, and stability training. Stick Mobility utilises the feedback mechanism of the stick to improve joint mobility and flexibility, reducing stiffness. It emphasises the correctness of movements and body awareness, which can improve poor posture, promote body coordination, and effectively prevent chronic pain caused by poor posture. It also helps enhance movement coordination and balance, effectively reducing the risk of falls.

About Quality of Life

To age healthily at home, the quality of life for elders is also important. A healthy mental state, strong family relationships, and social activities can reduce worries and enhance overall quality of life.

Free Haircut Service for Elders

HOPE *worldwide* invites a group of enthusiastic hairstylist volunteers from the community to provide free haircuts for elders each year. The response is always enthusiastic, and the hairstylists' skilled hands give everyone a fresh, new look.

Visiting Ho Sin Hang Elderly Home

Many senior citizens are still active and passionate, so we have formed a team of senior volunteers. Over the past year, this team and other recruited volunteers had visited Ho Sin Hang Elderly Home in Sandy Bay regularly, taking residents for walks along the nearby waterfront, chatting, and playing tabletop games. The senior volunteers demonstrated mutual support and love, which we truly respect.

‘Opportunities for the Elderly Project’

HOPE *worldwide* is participating in the ‘Opportunities for the Elderly Project’ funded by the Social Welfare Department. To enable elders to realise their potential, contribute to society, and embody the spirit of ‘active aging’, we invited students from the Jockey Club Ti-I College to collaborate with the elders at our center to learn about intangible cultural heritage. They created flour figurines and Chinese paper cuttings, which were then delivered to fellow residents in the elderly homes. The students also performed during the visit, fostering intergenerational understanding and emotional exchange.

Flour Figurine Workshop and Chinese Paper Cutting Workshop

Home Visits and Performances

Nearly 40 elders and students visited and performed at an elderly home together before Christmas to spread joy to the residents who had limited mobility.

Volunteers for Elderly Day 2025

This year’s ‘Volunteers for Elderly Day’ received support from 2,163 volunteers. At the kick-off ceremony, the guest of honor, Dr. Leong Che-hung, former Chairman of the Hospital Authority, and Dr. Leong Fung Ling-yee were inspired by the enthusiastic atmosphere. Accompanied by the HOPE *worldwide* ambassadors, Mr. Cheung Man-sun, and his wife Ms. Chea Shuk-mui, they visited the nearby housing estates to reach out to some elderly residents who were living alone.

On the other hand, volunteers set out to various housing estates and old buildings across Hong Kong after the ceremony. They visited or served about 1,000 elderly singletons or doubletons aged 60 and above who are receiving social welfare. Some visited two elderly homes to spend the afternoon playing with the frail elderly, while others accompanied some of them to lunch and outings to Disneyland. Moreover, hundreds of volunteers participated in the Fulfill a Wish Program, fulfilling 48 elders' small wishes.

Dental Healthcare Social Enterprise

Improving Oral Health for Vulnerable Communities

HOPE *worldwide* Dental Services has become one of the participating organisations in the government’s ‘Community Dental Support Programme’, which targets vulnerable communities. We provide subsidised dental services to help the underprivileged groups identify and treat dental issues early, thereby improving their oral health.

HOPE *worldwide* operates three dental centers located in Prince Edward, Sham Shui Po, and Kwai Fong, offering affordable professional dental services to the community. Many underprivileged groups neglect dental care due to a lack of pain or financial difficulties, leading to the deterioration of their dental health. The ‘Community Dental Support Programme’ offers oral examinations, X-rays, pain relief medications, as well as subsidised services for fillings and extractions to the eligible vulnerable individuals.

Eligible individuals include those holding a valid Hong Kong Identity Card or ‘Exemption Registration Certificate’, current recipients of the ‘Elderly Living Allowance’, or participants in the ‘Elderly Community Care Voucher Scheme’, ‘Integrated Home Care Services (Frailty Cases)’, ‘Improved Home and Community Care Services’, or ‘Home Support Services’. It also includes beneficiaries of the Hospital Authority's ‘Medical Fee Waiver’.

HOPE *worldwide*'s participation not only expands the service network of the Community Dental Support Programme but also provides more flexible and accessible dental services that cater to the needs of the underprivileged. In addition to clinic services, HOPE *worldwide* actively seeks to expand dental outreach services, collaborating with other organisations to assist the homeless and other vulnerable groups, thereby filling existing service gaps.

Many patients suffer from severe dental issues due to a lack of knowledge about dental care. Through education and outreach, HOPE *worldwide* endeavors to improve this situation, enabling more underprivileged people to prevent and treat dental diseases early, thus reducing suffering and the burden on healthcare systems.

Children and Youth Services

HOPE *worldwide* Center for Kids

Since its establishment, the HOPE *worldwide* Center for Kids has served 35,488 children from low-income families, providing after-school learning assistance and character-building guidance, with the aim of breaking the cycle of poverty for these families.

Beneficiaries Served to Date:	
Low-income families	11,107
Children from low-income families	35,488
Students with Special Educational Needs (SEN)	423

Many key factors can shape a child's future trajectory in their childhood. HOPE *worldwide* believes that character is the most fundamental element of development, which is why we emphasise training in this area while also focusing on their emotional well-being, values, and overall development. We recognise that school teachers and parents have different needs as well, and we aim to provide support to create a positive environment for our next generation to grow healthily and happily.

Student Initiatives

Reverse Garden Adventure

We are grateful to Singapore Airlines for sponsoring a visit to Common Farm, which allowed members of the Hope *Worldwide* Center for Kids to step out of the classroom and broaden their horizons.

Intergenerational Tram Day

We give thanks to a group of senior members for accompanying a group of teenagers on a tram ride. It was the first time many of these youngsters had experienced this transportation. The senior members shared countless stories, and the day concluded with a delightful lunch at a traditional tea house, leaving everyone with wonderful memories.

Balloon Installation Inclusive Activity

We thank Uncle Po's team for their support in teaching a group of primary school students how to create colorful large-scale balloon decorations. Throughout the process, each student learned to listen, follow instructions, communicate, and collaborate to complete the task. The principal even came to cheer on and support the students.

Drawings for the Future Group

Comic artist Ben Sir returned to teach elementary students how to draw comics. Each student expressed their creativity by contributing their part, which was later combined into a collective artwork. During this process, students learned the importance of contributing to a larger goal, and everyone was excited about the final piece.

English Reading and Writing Group

We provided after-school services at a primary school through the English Reading and Writing Group, helping students get more interested in English writing.

Leisure Swimming Club

Our Nordic walking exercise class for elders collaborated with the Leisure Swimming Club to learn Nordic walking together. On the event day, the Club presented each senior with a water bottle as a token of encouragement.

Parent and Family Initiatives

Stretching for the Soul

HOPE *worldwide* was invited to send a coach to provide a ‘Stretching for the Soul’ activity for a parent-teacher association at a primary school, allowing busy mothers to take time to relax, focus on exercise, and alleviate the stresses of daily life.

SEN Student Initiatives

In-School Support Services

HOPE *worldwide* provides in-school services for students with emotional and behavioral difficulties and adaptation challenges. We greatly appreciate the efforts of each teacher at the school. We offer ‘Social and Emotional Management Groups’ and ‘Attention Training Groups’ to provide these students with opportunities to grow through various platforms.

Emotional Intelligence Stars

We provide an after-school activity called ‘Emotional Intelligence Stars’ at a primary school, allowing students to learn cooperation and interaction through engaging activities.

Balloon Art for Social Awareness Seminar

Ballon artist, Uncle Po, shared how he uses balloon-twisting to encourage patients with diverse needs in hospitals, helping students recognise society’s various needs and how to bring hope and joy to those around them.

HOPE *worldwide* in China

Mu Yi Social Enterprise Noodle Shop: The City’s Warmth and Social Mission Behind the ‘Set Meal No. 7’

In Chengdu, there is a low-profile yet kind-hearted noodle shop - Mu Yi Social Enterprise Noodle Shop - that is quietly sharing warmth with the city through bowls of hot noodles. The owner intended for the shop to provide job training and stable employment opportunities for hearing-impaired individuals and disadvantaged groups. Through skill development and hands-on participation in operations, the noodle shop not only serves as a starting point for their integration into society but also as a platform for self-reliance.

Every day, 10 bowls of Love Noodles, code-named ‘Set Meal No. 7’, are provided to those in need, regardless of their circumstances. No proof of identity is required, and no questions are asked about their backgrounds; all they need to do is softly tell the staff, "I want Set Meal No. 7”, to receive a meal and respect. This act of kindness is not about charity but is rooted in understanding and companionship.

The design of ‘Set Meal No. 7’ reflects Mu Yi Social Enterprise's thoughtful approach to social support: helping beneficiaries without labeling them and encouraging them to extend this kindness to others when they are able in the future. This represents a sustainable philanthropic concept and a gentle social connection.

This charitable initiative not only addresses the small but genuine needs within the city but also showcases the role of social enterprises in social innovation and public participation. Mu Yi Social Enterprise believes that even if we cannot change the hardships of life, we can illuminate the cold nights and warm hearts through a bowl of noodles.

Please support ‘Set Meal No. 7’ through donation, so that more people can be benefited.

Good Trekker

Traveling with a loving heart - Tokyo and Izu Trip

This year, Good Trekker traveled to Tokyo and Izu. During the trip, we engaged with a group of local disadvantaged people and visited several employment support social enterprise projects initiated by HOPE *worldwide* Tokyo for people with disabilities. A group of 35 first visited the Atelier FUCCA studio located in Shibuya, operated by HOPE *worldwide*. The studio employs some people with physical and mental disabilities, creating handicrafts with the philosophy of 'enjoying the joy of creation'. The designer shares how they carefully select materials that allow members to express their creativity, resulting in unique patterned eco-friendly storage bags, cute accessories, illustrated T-shirts, handmade toys, and more. The studio also pays attention to each member's health and well-being, fostering an encouraging and collaborative environment for their social integration. Some members' works have even won design awards.

During the visit to a handicraft production session, our volunteers broke down language barriers with smiles and praises, expressing admiration for the members' professional craftsmanship. They were moved by the members' efforts to overcome physical challenges, creating unique and charming works infused with heartfelt intention, bringing healing to society.

Downstairs from the FUCCA studio is a small shop that sells handicrafts and is part of another social enterprise project, Shibuya Marufuku Bakery. The bakery repurposes used flour bags as design materials for the studio after washing them. This time, the center's members specially prepared exquisite cookie gift boxes and eco-friendly bags for the Good Trekkers, making this trip's souvenirs particularly meaningful.

We also visited a soba restaurant, Shibuya Hachiko Soba, located in the Shibuya Ward Office. This restaurant was opened by HOPE *worldwide* in 2021, providing employment opportunities to support people with disabilities. They collaborate with the kitchen staff and instructors to leverage their abilities and strengths to create delicious food. The restaurant was packed during lunch, and the volunteers from Hong Kong patiently waited for a table before finally enjoying the exquisite tempura and soba.

The funds raised by the participants in this charity trip was used to support HOPE *worldwide*'s inclusive social enterprise workshop in Japan, funding the production of handicrafts by people with disabilities, as well as supporting training services for hearing-impaired individuals at the social enterprise noodle shop in Chengdu. Special thanks to the Greater Bay Area Airlines for their full support of this journey. If you are interested in experiencing a different travel style, you are welcome to join Good Trekker in the future!

Plan C: C for Compassion Volunteer Movement

Giving a 'C' to Those Around Us Every Day

Starting in 2023, HOPE *worldwide* launched the 'Plan C Initiative' to promote the concept of volunteering as a spontaneous lifestyle habit. This initiative encourages everyone to be mindful of the needs of those around them at all times and places, extending a helping hand, caring for, and assisting others. We also hope that volunteers can understand the needs of people from different social strata and work together to create an impact and harmonious society.

Volunteer Recruitment: Home Repair Volunteer Team

"The ceiling is peeling, but I have no money and don't know what to do", "What should I do about the leaking faucet?"

Service Content: Provide home or plumbing repair services to improve the quality of life for elders.

Volunteer Requirements:

- Age: 18 or older
- Skills: Knowledge of plastering, painting, plumbing licenses, and repair experience preferred.

Volunteer Recruitment: Decluttering and Cleaning Team

"I want to clean my house, but I can't see clearly", "I ate expired food and now my stomach hurts!"

Elders may struggle to clean their homes due to declining vision and need assistance.

Service Content: Assist elders in cleaning their homes.

Volunteer Recruitment: Stairlift Volunteer Team

"I need to go to the hospital for a follow-up, but I can't walk", "There's no food at home; I want to buy a loaf of bread."

Service Content: Teach elders how to use the stairlift.

To register as a volunteer, please call 2915 3993 or 5542 9953 (WhatsApp) to contact Ms. Chan.

Flag Day

HOPE *worldwide*'s Flag Day was successfully held on March 15, 2025, with thanks to the strong support from volunteers from different groups. The funds raised would be used at the HOPE *worldwide* Center for Kids to provide after-school support and character education services for children from low-income families and students with special educational needs (SEN) in the Sham Shui Po area, helping them grow and break the cycle of poverty.

We encourage all donors to continue supporting our fundraising efforts to help more people in need.

Looking Ahead

2026

Volunteers for Elderly Day

Volunteers for Elderly Day is scheduled to take place on January 25, 2026. We plan to dispatch over 2,000 volunteers to visit the elderly or couples who are living alone in the public housing estates and old buildings across Hong Kong. We welcome interested volunteers to participate.

Parent-Child Workshops

HOPE *worldwide* offers a variety of parent-child workshops, including 'Horticultural Therapy: A Path to Stress Relief and Relaxation', where professionals explain the stress-relief and relaxation methods of horticultural therapy, along with practical examples to maintain mental health. Additionally, there is the 'Uncle Po Balloon-twisting Workshop', which is a highly engaging parent-child activity where parents and children learn balloon-twisting techniques together. From conceptualisation and design to collaboration and the creation of finished products, this process fosters mutual understanding and strengthens emotional bonds.

Community Care Services

Many elders, depending on their physical condition and family circumstances, choose to age at home and utilise community care services provided by the government. HOPE *worldwide* is one of the recognised community care service providers for the elderly by the Social Welfare Department, offering home-based services. These services include rehabilitation therapy and exercise, nursing care, personal care, home cleaning, escort services for medical appointments, meal delivery and soft food supply, caregiver training at home, home safety assessments and improvement recommendations, as well as speech therapy. Our service areas cover locations from Kwai Tsing to Tsim Sha Tsui.

The elders may choose to purchase service packages according to their needs. For the 2025-26 fiscal year, the community voucher values range from a maximum of $10,664 to a minimum of $4,495 per month, adjusted annually based on the user's asset declaration. The required voucher amount is determined at 5% to 40% of the total. For more details, please feel free to contact us.
